- dietary restrictions / preferences (gluten free, halal, vegan, etc):
- delivery address (and any special instructions)

produce, dairy, bread, non-perishables, treats:) email executivedirector@npna.ca to sign up

### 2021 STRATEGIC PLAN GRANT

Submitted a grant application to:

- 1) continue weekly grocery hampers
- 2) continue monthly food market @ RAP
- 3) host free drop in programs and activities for adults, seniors, children, and families @ RAP
- 4) begin a drop in playgroup
- 5) art activation of North Park Village

City of Victoria grows vegetable seedlings and pairs with community groups to distribute them to the community

- Spring (May 17 June 6) and Summer distribution
- likely in Franklin Green following all covid protocols

Distribution will also include growing containers, soil amendments, and mulch

### GET GROWING, VICTORIA

### NORTH PARK NEEDS ASSESMENT

- Funded by a VIHA "Community Wellness" Grant
- Working with a UVIC researcher
- Goal of the needs assessment will be to identify gaps in programs and services in North Park to guide future grant applications, program development and delivery.
- Will be seeking advisory committee members soon. Email executivedirector@npna.ca if you are interested.

#### VOLUNTEER OPPORTUNITIES

#### Land Use Committee Members

CALUC members may expect to help coordinate and attend neighbourhood meetings with developers/proponents and provide feedback on proposed developments. You can also expect to work with the City and other local residents on community land use plans and initiatives. Other roles/activities are dependent on members' interests, skills, and time commitment. We welcome a wide range of interests and skills on the land use committee. You do not need to have prior experience or knowledge of land use matters to get involved!

#### Franklin Green Community Garden Volunteers

Located in Franklin Green (behind the old Wellburns at Cook & Mason) is a small, native plant garden. This garden is cared for by volunteers who love native plants, community, and nature. If you would like to learn more about native plants, teach others about native plants, or spend some time in a community garden getting to know your neighbours, let us know! Thank you to the City of Victoria for the grant funds that made establishing and caring for the Franklin Green Community Garden possible!

NPNA Board - email board@npna.ca if you would like to find out more!
